This board is created to meet the need of the ExpressCard market where laptops, desktops, and docking stations could add one additional Super-Speed USB 3.0 port via a single slim-type ExpressCard slot. It works up 5 Gbps for data transfer when connecting to USB 3.0 compliant peripherals, while maintaining compatibility with existing USB peripherals devices. Users will benefit from ExpressCard plug-n-play ease of use, which eliminates the need to open the chassis to add new features. With USB 3.0 ExpressCard, it makes you connect kinds of USB peripheral instantly and conveniently, such as external storage devices, MP3 players, and all other USB devices.

Features

- Fully compliant with ExpressCard specification 1.0
- Compliant with Universal Serial Bus 3.0 specification Revision 1.0
- Supports simultaneous operation of multiple USB 3.0, USB 2.0 and USB 1.1 devices
- Supports data speeds:
  Super-speed (5Gb/s), High-speed(480Mb/s),
  Full-speed (12Mb/s) , Low-speed (1.5Mb/s)

Package Contents

- 1 x ExpressCard/34 USB3.0 Adapter
- 1 x User Manual
- 1 x Driver CD
- 1 x USB Cable

Note: Contents may vary depending on country/market.
